

Business Mobile Apps

AT YOUR FINGERTIPS

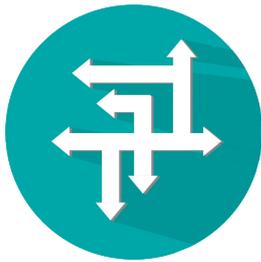

Think Creating an App is too Expensive?

When most business owners and marketing managers think about app or software development, they normally associate these services with high up-front costs. With DV02 this isn't the case.

We design, develop and deliver your very own branded and fully customised mobile app in exchange for one low monthly fee, meaning every business can now take advantage of the mobile revolution.

Think Creating an App is too Complex?

For many, the idea of being involved in mobile app development can be a daunting prospect, especially for those with no experience in coding or app design. As we develop our Business Mobile Apps from a number of predefined templates we take away the complexity associated with mobile app development without compromising on functionality, making it simple to work with our customers to get exactly what they want.

Think Creating an App is too Time-Consuming?

A common deterrent businesses have when thinking about app development is the time it takes to get your app to market and they are not wrong. Research from a survey of iOS, Android and HTML5 Developers found that on average it takes 18 weeks to get an app to market. In that time, requirements can change or other priorities can take over and by the time your app has gone live, it may not be fit for purpose. Our apps take a quarter of that time.

Why DV02 for Business Mobile Apps?

DV02 is an independent company founded in 2002 by experienced telecoms professionals who recognise that businesses need to do 'more for less', and get better value from their business telecoms investments

We provide voice and data solutions to medium and large businesses. Our difference is the way we work in partnership with IT and telecoms managers to solve typical problems.

Your business. Our expertise. Your solution. **DV02** delivers.

Business Mobile Apps

Web Page Integration

Integrate any page of your website or 3rd party web-based system for the ultimate user experience.

Contact Info

Add phone numbers, email, website and social media channels.

Booking Systems

Embed simple booking forms, integrate a full booking system or even mirror your existing online system.

Location & Maps

Add the maps & locations feature and include GPS so your customers can find you.

Monthly Billing

Rather than the usual one off up-front payment we bill our customers with low monthly payments to suit your budgeting.

Industry Specific Knowledge

We've worked with a wide range of industries and as a result have experience with knowing how your particular business can benefit from our features.

Push Notifications

Send targeted messages to your customers' smartphone home screen.

Social Media Integration

Integrate all your social media channels so customers can access all your updates in one place.

Loyalty Card

Add an electronic loyalty card to your app for your customers to earn rewards.

Special Offers

List your special offers and discounts and update them at any time.

Electronic Forms

Embed feedback forms, order forms and capture key information and signatures for your document processes.

Electronic Payments

Take credit card payments online or in person using your smartphone or tablet and integrate with leading solutions such as PayPal.

FanWalls

Turn your app into a social media channel by posting news, offers and updates on your very own social wall and see what your customers post in response.

QR Reader

Make your products and printed media come to life by using our QR Reader technology.

Account Management

You will be allocated an account manager to be your point of contact. All of our account managers are responsive, technical and helpful and will always be on hand to answer your questions.

24/7 Support

We know it can be stressful when something goes wrong and you have to wait to find a solution. We have friendly support staff available 24/7 to provide assistance whenever you need it.

DV02 Delivers

Mission Statement

To deliver remarkable, independent telecommunication solutions to help businesses achieve their goals.

Vision

To be the telecommunication company of choice for UK businesses.

Core Values

We deliver with C.A.R.E:
Customer Focus
Accountability
Remarkable Service
Enthusiasm
